## **Introduction:**

This takes place in the "Regulator's" universe, where here and in "Desperation" world exists a being called Robert Gray. Who terrorized the people of the town of Derry, the world outside our universe all has one form. The 'Turtle' is only one anywhere so it is not doubled like Robert Gray. However, like the 'Turtle' there are always those chosen to be champions of the greater good. They also can only exist in one world at a time, in the Regulator's universe a group of young children who grew up banded together to defeat the Robert Gray in that universe banishing forever to non-existence. This left the other Robert Gray unchallenged for many years, until the sixties. Until the world experienced a trend of love and freedom, leaving the world to be lead by the voice of a new Chosen whose purpose among many others was to visit Derry and come face to face with Robert Gray.

Ladies and Gentlemen these Chosen in the Desperation universe were, **'The Beatles'**.

## **2. Hiatus**

Permanent And Indefinite Hiatus for I don't know how long.

I had a drive before readers, I was writing for a purpose...but let's face since "I'm Dating Freddy" I've been turning blanks. Consider all other stories on hiatus and those done fluke or just a onetime thing. I don't know what to do anymore. I don't know how to explain it so just let it be for a while.
